

FEEDING DIRECTIONS

Add greenSTART® at a rate of up to 3 kg per tonne (6 lbs/ton) to complete live-stock feed. Clean, fresh water should be available at all times.

STORAGE

Keep bags closed. Store in cool, dry area for maximum stability. Avoid leaving bag open for extended periods of time.

A Flavouring Agent for Livestock Feeds

A blend of registered oils, plant extracts and spices, developed to improve the palatability of feed.

greenSTART® is a natural herbal flavouring agent for use in livestock feeds. greenSTART® contains a standardized mixture of registered essential oils, plant extracts and natural spices.

How to use greenSTART®

greenSTART® is suitable for livestock feeds and can be used:

- In a complete mash or pelleted feed
- In vitamin/mineral premixes
- In supplements
- In liquid feed systems
- With other STARTline® products
- With medications

Features

- greenSTART® is safe to handle.
- There is no withdrawal period.

Potential Benefits

greenSTART® could result in the following benefits:

- Improve the palatability of feed.
